

**Amendment to the Specification:**

Please amend and replace paragraph [0076] of the specification (as published as United States Patent Application 20070221672) as follows:

[0076] In many respects the modifications of the various figures resemble those of preceding modifications and the same reference numerals followed by subscripts "a", "b" and "c" designate corresponding parts. For example, in addition to other subscript corresponding parts heretofore discussed, cap top 33a and cap skirt 34a of FIG. 5, 6, and 7, skirt bottom edge 36c of FIG. 12, locking bead 39b of FIG. 9 and 10, gussets 42a of FIG. 7, 42b of FIG. 9 and 10, and 42c of FIG. 12 and 13 all are like components designated by like reference numerals of various earlier figures.
